Technical requirements and planning

Images

19 in total

Home page: 8 images

3 in carousel—1900x800

5 in body—700x400

Side bar: 2 images—500x300 (subject to change)

Menu page: 5 images—700x400

About page: 1 image—900x300 (subject to change)

Staff page: 3 images—750x450

Potentially challenging areas

Showing price tags on top of images

    -Images might need to act as background

Showing interactive button on top of image (add to cart)

    -Might not need to be on top of image (could be placed in the container)

Having two nav-bars in mobile display that are hidden until buttons are pressed

    -The cart will potentially need images to be re-sized to accommodate mobile display

Implementing the side bar so it will consistently display on all pages

    -Will need to duplicate the side bar on all pages and fit content around the width
